Atenção!

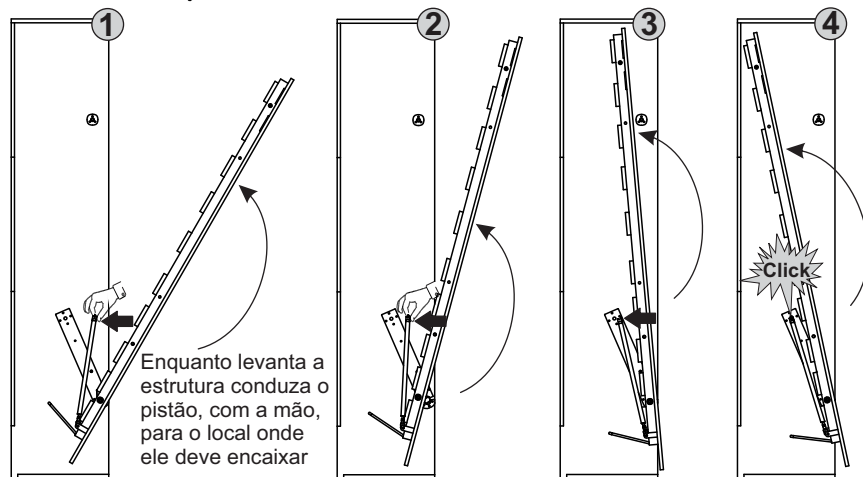

Para encaixar o estrado na estrutura é importante posicionar ele na diagonal, como mostra a imagem acima, encaixando primeiro o rolamento do lado esquerdo e depois o rolamento do lado direito. Após encaixe o pistão conforme mostra a imagem ao lado.

13

Passos para o encaixe do pistão

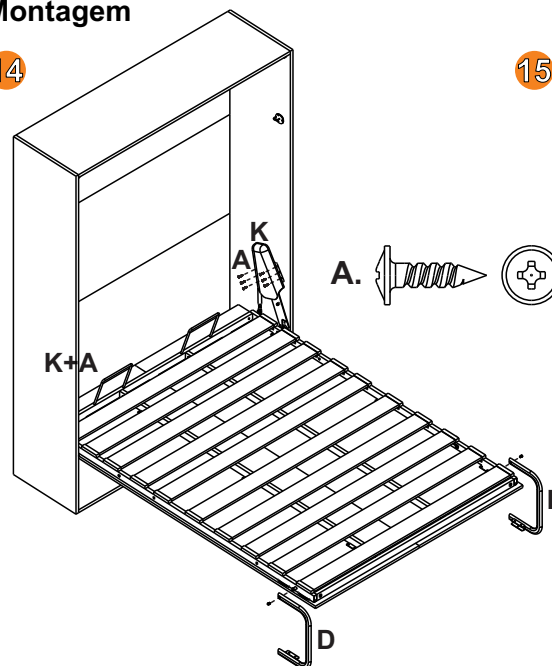

Enquanto levanta a estrutura conduza o pistão, com a mão, para o local onde ele deve encaixar

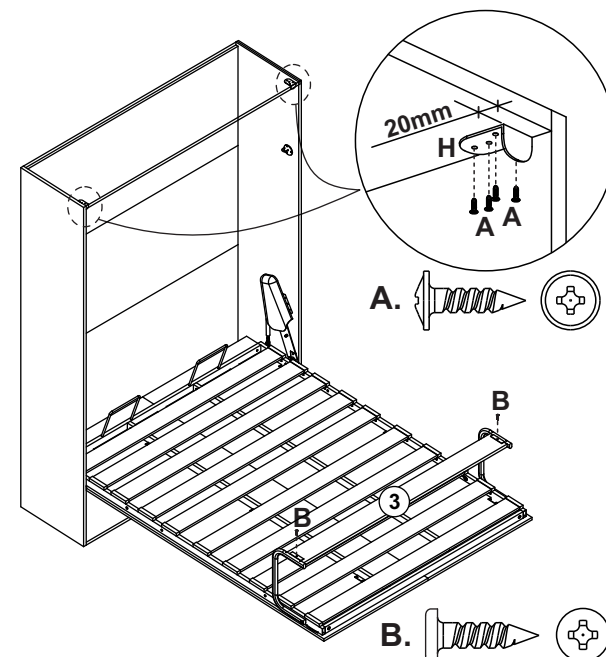

Levantar a estrutura, conforme etapas indicadas nos desenhos, para que haja o encaixe perfeito do pistão.
